

Spanish

Hola! If you haven't guessed yet we started Spanish! The new arrival to the language has been going excellent- so far we have been reviewing things such as the Spanish alphabet, greetings and goodbyes, conversation starters. We think the Spanish teacher is hopefully adjusting to the new group of 5th and 6th graders as we are adjusting to her!

Science

Science has been very interesting so far in our new unit of Forces in Motion, we've done things such as test how many washers can be pulled by a motor depending on how the batteries are set up, either in parallel or in series.

Gym

Everybody is hot on the skates as we glide across the gym floor. The new unit in gym is roller skating as some people are lying on the ground trying to recover from their recent fall

others are speeding away. But don't worry because we are equipped with wrist guards, helmets, knee pads, and elbow pads. Well, we hope to skate onward with the unit.

Haiti Fund-raiser

We all deserve a pat on the back for raising well over 150\$ of money for the unfortunate earthquake in Haiti. Luckily for them our class alone raised money for them- a whole whopping 150 bucks. Over the 3 day time period I think that is a pretty good job considering pajama day truly helped!

Health

We have started the fascinating Health as our explore class. Our first unit in health is: To Good for Drugs. This is true we are too good. We are learning to plot out are dreams and if drugs are in our path we should avoid them but sometimes the crowd you're in puts peer pressure on you.

Math

The time has come for a new unit in math!!! This unit involves lots of algebra and negative numbers. We are learning to solve equations. The next unit will be on probability. Social

Studies

Well in Social Studies we were just informed that we are going on a field trip!!!! The field trip is to see the movie, The Lightning Thief and after we get to go to the bowling alley for some lunch and 2 games of bowling!

Tic-Tacs

When you come into our classroom you will probably hear munching and crunching of people having Tic-Tacs. The new rule of our classroom is no chewing gum but to solve the conflict we decided tic-tacs would be appropriate. So when you hear the jingling of them in your pocket don't worry it's the new mint!!!!

Reading and Language Arts

We will start the next paper in language arts next week. This will be a research paper on Greece and how it impacts our society today.

P.S. Hope you all have a great Valentine's Day!!!!!!
